

NATURAL ABACA™

Made by pressing natural bark from the rapidly renewable Abaca tree onto a durable synthetic shell, then protecting the natural material with many layers of clear resin, then polishing the clear surface to a high sheen. Natural Abaca is complemented by Abaca in Colors, which are the same shapes painted in any of our Earth Forms finishes.

ABACA™
IN COLORS

Available in all
Earth Forms Finishes

*Natural Abaca —
For indoor use only*

*Abaca in Colors —
